## **Keep Your Home Safe While You're Away**

Have you been thinking about a vacation to escape our rainy "summer"? We don't blame you. Over the May long weekend, Peel Region saw a noticeable increase in home break-ins. Why? Because homes were empty - This is a prime time for potential criminals to act. Before you get too excited about your next weekend getaway or summer holiday, consider the following tips to make your home appear "lived in". As you'll notice, a relationship with your neighbour is an important element!

**Check out Peel Regional** 

Police's Home Security

Challenge!

#### Things to ask your neighbour to help with:

- Collect mail and any newspapers on doorstep
- Maintain the yard (ex. mow the lawn, water plants, shovel in winter)
- Request that they park in your driveway
- Take out/bring in your waste bins on collection day

#### Things you can do on your own:

- Set automatic timers on lights in and around your home. A good lighting system is a costefficient and effective crime prevention strategy
- Invest in stronger locks or alarm and security system

#### Avoid:

Broadcasting your plans and family vacation photos on social media (don't forget to educate
your kids on this as well). We suggest waiting until you're home to do that. Sharing when and
how long you're gone informs perpetrators <u>exactly</u> when to strike.

### Host a Great Block Party and Win an Award!
